**Service Agreement**

This Agreement shall be considered a part of all the electric service contracts or agreements between Coahoma Electric Power Association (hereinafter called the "Association") and the Applicant, (hereinafter called the "Member"). Any default of the Member under this particular Agreement shall be considered as a breach by the Member of all agreements or contracts between the Association and Member.

Member shall be bound by the provisions of the Association's Articles of Incorporation, Bylaws and such policies, rules and regulations as may from time to time adopted by the Association.

Member shall pay for electric service monthly at the applicable rate schedule which shall from time to time be fixed by the Association's Board of Directors. Member shall be the bailee of the Association's electric meter and other service facilities installed on Member's premises and shall accordingly desist from interfering with, impairing the operation of or causing damage to such facilities, and shall use his best efforts to prevent others from doing so. In the event such facilities are interfered with, impaired in their operation or damaged by the member, or by any other person when the member's reasonable care and surveillance should have prevented such, the member shall indemnify the Association and its employees, agents and independent contractors against death, injury, loss or damage resulting therefrom, including but not limited to the Association's cost of repairing, replacing or relocating any such facilities and its loss, if any, of revenues resulting from the failure or defective functioning of its metering equipment.

The Association agrees to use reasonable diligence and care under the circumstances as they exist from time to time to provide a constant and uninterrupted supply of power and energy; but if such supply should fail, fluctuate in voltage or be interrupted or become insufficient for any reason or cause, Association shall not be liable to Member or anyone else for any damages resulting from such power interruptions, voltage fluctuations or insufficiencies.

It is understood and agreed that the connection of the Association's electric service lines of the Member's premises shall not in any way or manner constitute the Association's approval of the Member's wiring or the safety or adequacy of the same. Member shall be responsible for and shall indemnify the Association and its employees, agents and independent contractors against death, injury, loss or damage resulting from any defect in or improper use or maintenance of such Premises and all wiring apparatus connected thereto or used thereon. In no event shall the responsibility of Association extend beyond the point of delivery which shall be where the Association's service lines are attached to Member's service entrance.

Member shall permit the Association's authorized employees, agents, and independent contractors to have access to the member's premises for meter reading and for inspection, cutting and clearing of limbs and trees from lines, and all other functions required in the operation and maintenance of Association's service facilities.
